Philosophy For Children

Each week in the newsletter we will pose a question that you and your child or your family can discuss.....remember, listen and respect each other's views!

Would you rather be a monkey or a lion?

Dear Children and Parents,

It has been a busy week as we are getting ready for children in Reception, Year 1 and Year 6 to come back to school after half term (if the scientists measuring the virus levels still see it is safe for us to do so). We have sent out a letter to let you know how things will be organised and will give more details next week to the families and children coming back to school.

If you are in Years 2,3,4 and 5 you will still be working at home and we will still be sending you lots of work to help you keep learning. There will still be virtual students of the week and newsletter and zooms from your teachers as well as their weekly films.

Every week, you impress us so much with just how well you are doing at home and seeing how many different ways that you are learning. The newsletters are jam packed full of your amazing work, which is wonderful to see. The thing that I don't like is my diary popping up each day with the things that you would have been doing if we were still at school. Mrs Webb and I are making a list of these things so that we can try to "catch up" on as much as possible when we are back together.

This week is Christian Aid Week, so do donate money to this amazing charity if you can! And have a cake to Celebrate, as it would have been our fundraising cake sale this week.

www.christianaid.org.uk/

Next week is Ascension Day and our new tradition is to blow bubbles into the air and watch them rise. This will help us to remember Jesus ascending into heaven. Lets hope our key worker postmen and women can help with deliveries this week, as we are organising some bubbles to be delivered to you all. You can join Father Brian and Father Nicholas to celebrate Ascension Day on Thursday and blow bubbles together.

Have a lovely weekend! With best wishes as ever,
Mrs Hawkins

Student of the week

Reception Class:
Ethan & Oscar
Year 1:
Elena & Annabel
Year 2:
Chloe & Eden
Year 3:
Charlie & Mael
Year 4:
Freddie & Michael
Year 5:
Lucas & Jehzane
Year 6:
Andres & Naran

We are holding a mini fundraising event for the Children-Reverse mufti day. On **Friday 22nd May** we would like all the children to wear their school uniform to their home schooling lessons and send a photo to lphillips@ccht.rbkc.sch.uk for the next newsletter.

A £1 donation can be made on the **School Gateway**. All funds raised will go to the enrichment fund.

The Cheesy, Joke Corner

Can February March?
No, but April May.

What season is it when you are on a trampoline?
Spring-time.

What flowers grow on faces?
Tulips (Two-lips).

What do you call a rabbit who has fleas?
Bugs Bunny

Which month can't make decisions?
MAYbe.

Are you a dinosaur fan?

If so the Natural History Museum have a great page on their website with lots of dinosaur related activities. As well as learning lots of fascinating facts about dinosaurs, you can make your own origami dinosaur, learn how to draw a dinosaur and even do a quiz to find out what type of dinosaur you are!

[Click here for all things dinosaur!](#)

“Grown-up people do not know that a child can give exceedingly good advice even in the most difficult case.”

King of the Classroom (ages 3-5 & up)

Author: Derrick Barnes Illustrator: Vanessa Brantley-Newton Publisher: Scallywag Press

It's the first day at school for one little boy, and his mum and dad are determined that he be excited and happy about it. Mummy says her little boy is going to be King of the Classroom! Before he gets there, he'll use a golden brush to clean Ye Royal Toothlets and eat a breakfast fit for a King.

Once at school, our kind, friendly king greets his kingdom cheerfully and takes a seat at the Round Table; important matters such as letters, numbers and shapes are discussed. At break time, the little boy is brave, like a king, and asks a little girl to play with him. Not only does she say yes, but she helps them fight a giant fire-breathing dragon! Finally, at the end of his first day at school, the King of the Classroom returns home to tell his subjects all about his amazing day.

This wonderfully empowering picture book for little ones not only assuages their possible fears about starting school or nursery but models a celebratory approach to the big day with an upbeat story about being confident.

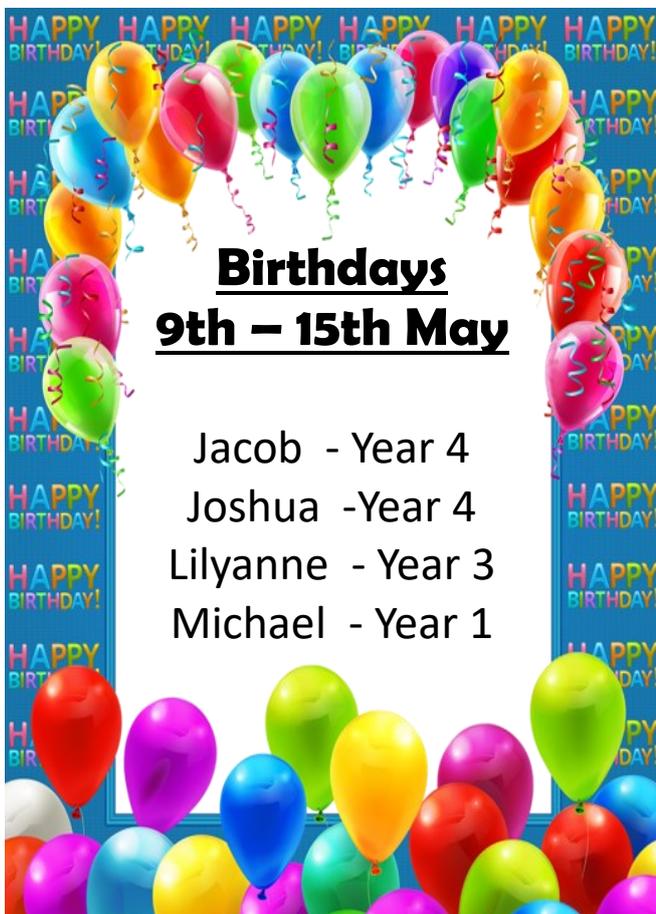

We may not be able to have parties with our friends, but we can still celebrate in style at home. What better way to mark a birthday, baby shower, engagement or celebration than with balloons. Stay at home celebrations can still be fabulous! If you have an upcoming occasion that you want to make special, please contact Mrs Phillips at the email address below. Deliveries to your doorstep, with no social contact and 5% of each booking made my CCHT families will go to the school.

Red Arrows
The Red Arrows, an aerobatic display team and the

public face of the Royal Air Force made one of their famous flypasts on VE Day, did you see them? Some of us were lucky enough to have spotted them and were very impressed by what we saw. If you would like to find out more about the Red Arrows, visit the link below

<https://www.raf.mod.uk/display-teams/red-arrows/>

Information from Holy Trinity Church

Holy Trinity Junior Church Zoom Sundays at 11am

Families have been meeting online to share in a 20 minute encounter to maintain friendships, learn about interesting pieces of artwork pertaining to the Gospel of the day and subsequently making a craft at home. If you have children and your family would like to join on Sunday, please email our Parish

Administrator on parishoffice@sloanechurch.org for the login details. Please note that a formal register of children joining the 'zoom meet' will be taken and this will provide Fr Nicholas with a record of attendance, with regards to school admissions during this challenging time.

Father Nicholas reminds us that it's Christian Aid Week...

It's Christian Aid Week this week. Christian Aid is a charity that started 70 years ago after the Second World War to help refugees—people who had been forced to leave their homes. It's one of the good causes we raise money for at school each year.

Christian Aid exists not just to help Christians but people in need—of all faiths and none. As the Bible teaches us, everyone is equal in God's eyes and today Christian Aid is working for a world where everyone can live a full life free from poverty.

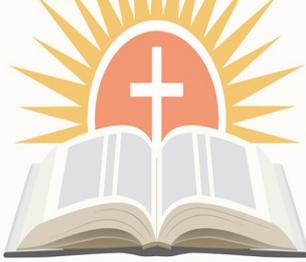

Usually, during Christian Aid Week, volunteers go from house to house knocking on doors or standing outside Underground stations to ask for donations. Last year, Christian Aid Week raised £8 million. But imagine how difficult it is this year when nobody is allowed to do this because of the Coronavirus Pandemic. So just like our learning has gone online, Christian Aid has too.

If you would like to donate, you can find them here: bit.ly/2WRdvW9

God, in your mercy, may your love that never fails, strengthen the weak, encourage the fearful, calm the anxious and heal the sick. Amen.

Wisdom

Wisdom
Neo - Year 5

Dear God please make me and others be wise
and make good choices please God please.
Please make the world get thru this very
bad time AMEN.

Prayer For Wisdom

Zechariah - Year 5

Dear Heavenly Father,

I Want Your Wisdom, Help Me Understand,

That The Heart Of Wisdom Is Seen In My Rest, Only In You.

I Humbly Ask You To Fill Me With Wisdom.

Open My Heart To Gain You Everlasting Wisdom, To Spread The Word Successfully In The Land.

Amen

Dear God,

Thank you for Guiding me in all my hard times
and making the right decision for me. I
will always follow what you say.

Amen

Tiara - Year 5

Wisdom prayer

O God and Heavenly Father, grant to us the
serenity of mind to accept that which cannot
be changed, courage to change that which can
be changed, and wisdom to know the one from
the other, through Jesus Christ our Lord, Amen.

Paon - Year 5

RE 4/05/2020

PRAYER FOR WISDOM

Lord, I ask for wisdom to know
the Holy will, Help me listen
for Thy voice that speaks soft
and still

in the quiet of my heart

When the noise I seek,

Help me listen and

obey Thy words I hear You speak
in Jesus name, amen.

7 May 2020

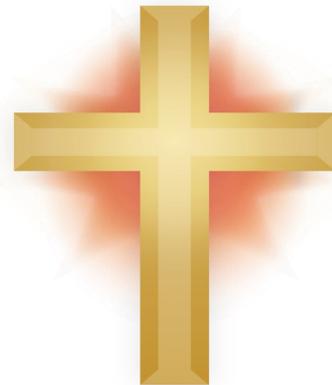

L.O. Write a Wisdom prayer.

Dear God,

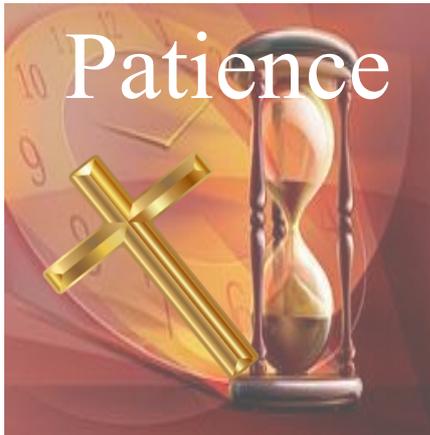

Teach me to be wise and want to be wise so
I can make smart decisions and have a better
future. Teach me to be like King Solomon because he
always made the right choices like he said cut the
baby in half and see which lady would say it was a
good idea and which one would say let her keep him
just don't kill him. please teach me how to be wise

Amen

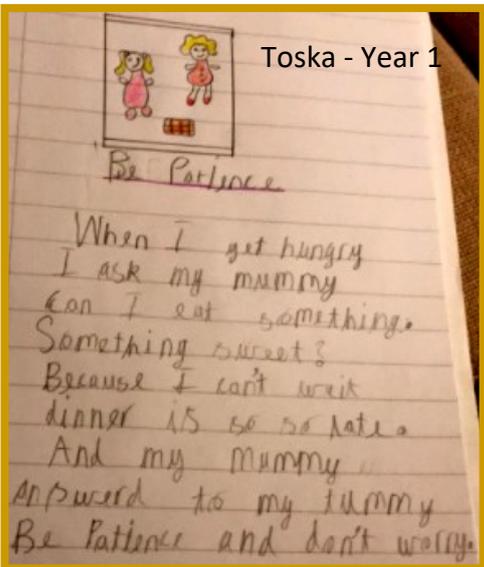

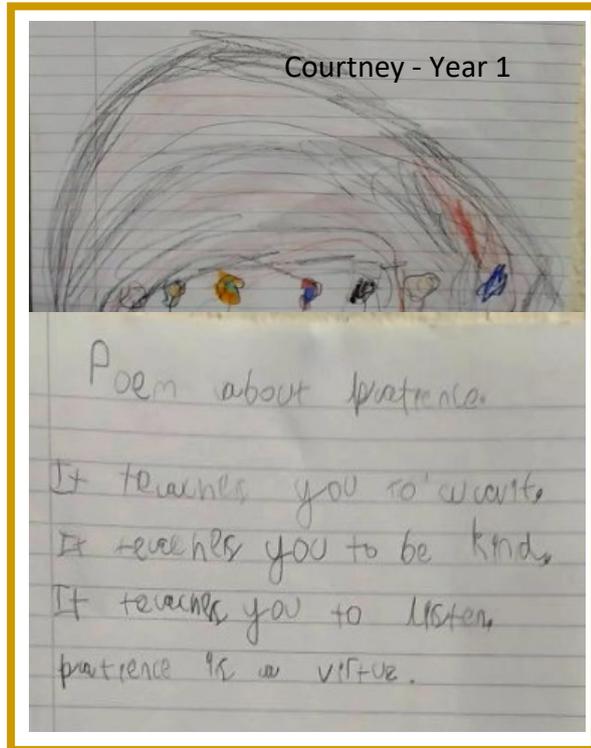

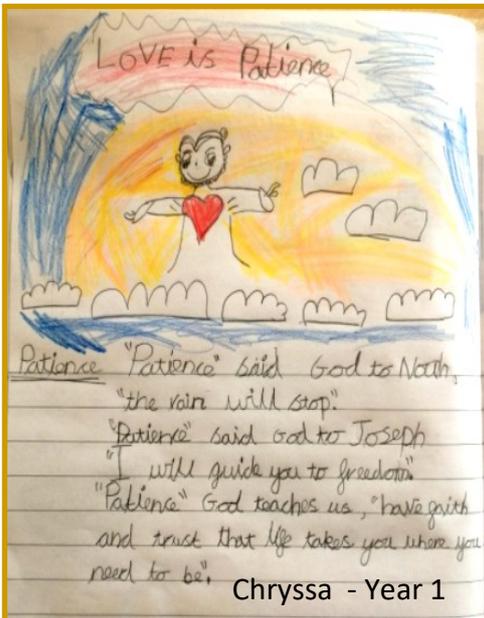

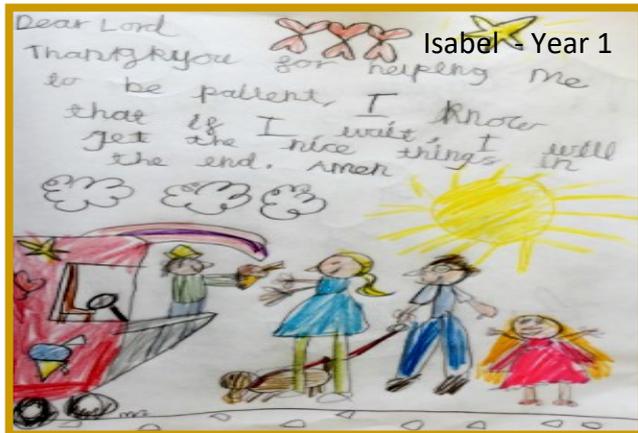

Ruby-Anne - Year 5

The amazon rain forest

• Did you know that in the Amazon rain forest there are more than a million different species of animals.

• Did you know that there are silver tree fruits inside the amazon rain forest.

In the rain forest you would expect lots of rain. Right? Wrong! Just because it is a rain forest does not mean it always rains! Sometimes it's cloudy. Sometimes it's sunny and sometimes it can be quite cold and that's what you need to know.

For you who did not know the forest is located in Brazil.

KEEP CALM and SAVE the Rainforest

Olivia - Year 6

Ballet is Amazing

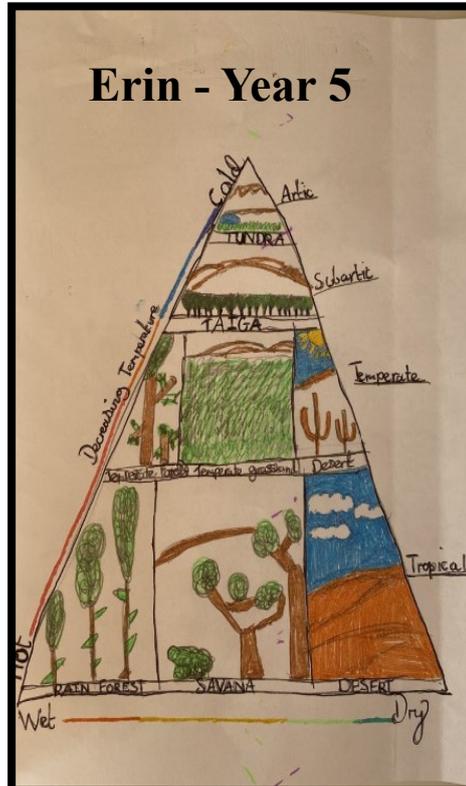

Love the music and the ballet dancers approach but they are only good because tough is their coach!

Look at them fly across the room as they perform a dance of doom.

Energy is what they show as you look at some girls with a pink-silver bow!

Time is flying and you don't realize it.

Erin - Year 5

11/05/2020 Multiply fractions by integers

a. What fractions of the area is used?
 $\frac{30}{100}$

b. What fraction of the area is yellow?
 $\frac{20}{100}$

c. What percentage of the area is red?
 30%

d. What percentage is yellow?
 10%

2.

Kadri - Year 6

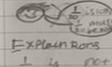

3. $\frac{9}{10} = \frac{90}{100} = 90\%$

b. $\frac{45}{100} = 45\%$

c. $\frac{11}{50} = \frac{22}{100} = 22\%$

d. $\frac{25}{100} = 25\%$

4.

Explain your mistake
 $\frac{1}{10}$ is not 10%
 $\frac{1}{20} = 5\%$

5. Convert fractions to percentages

$\frac{1}{4} = 25\%$
 $\frac{1}{5} = 20\%$
 $\frac{2}{10} = 20\%$

Life Cycle

Dunya - Year 6

Stage 1	Stage 2	Stage 3	Stage 4
Don The beginning of the life cycle is the egg. The egg is laid by the female. The egg is fertilized by the male. The egg then develops into a larva. The larva then grows into a pupa. The pupa then grows into an adult. The adult then lays more eggs.	Frog The life cycle of a frog starts with an egg. The egg is laid by the female. The egg is fertilized by the male. The egg then develops into a tadpole. The tadpole then grows into a froglet. The froglet then grows into an adult. The adult then lays more eggs.	Chicken The life cycle of a chicken starts with an egg. The egg is laid by the female. The egg is fertilized by the male. The egg then develops into a chick. The chick then grows into a young chicken. The young chicken then grows into an adult. The adult then lays more eggs.	Butterfly The life cycle of a butterfly starts with an egg. The egg is laid by the female. The egg is fertilized by the male. The egg then develops into a caterpillar. The caterpillar then grows into a pupa. The pupa then grows into an adult. The adult then lays more eggs.

Hugo. T. Year 2

Outstanding English Work
Darcy - Year 4

Dear Miss Hawkins,

I am writing this letter to state my argument for and against why children should or shouldn't wear school uniform. These are some of my ideas.

Firstly, in my opinion wearing school uniform prevents children from ruining their own clothes, which places less pressure on them to be able to get more involved in messy play.

Evidence suggests that some student's parents are on low wage and may not be able to afford the latest fashionable clothes, so wearing school uniform will prevent them from being embarrassed and standing out.

The advantage of wearing a School uniform when going out on trips, helps teachers to be able to easily identify their students, which minimises the risk of a child getting lost.

School uniform also helps children from feeling left out as they are all wearing the same clothes and can have a sense of being unified.

However, one advantage of not wearing a school uniform is, it gives children a sense of individuality where they can express their personality.

Another argument is school uniform can be stuffy and uncomfortable due to having to wear too many layers. For example, why do girls have to wear ties, when this is not something they would ever wear as an adult? It can also be a health and safety risk if you were to get caught in something and potentially straggle you.

Yours sincerely

Darcy Matthews

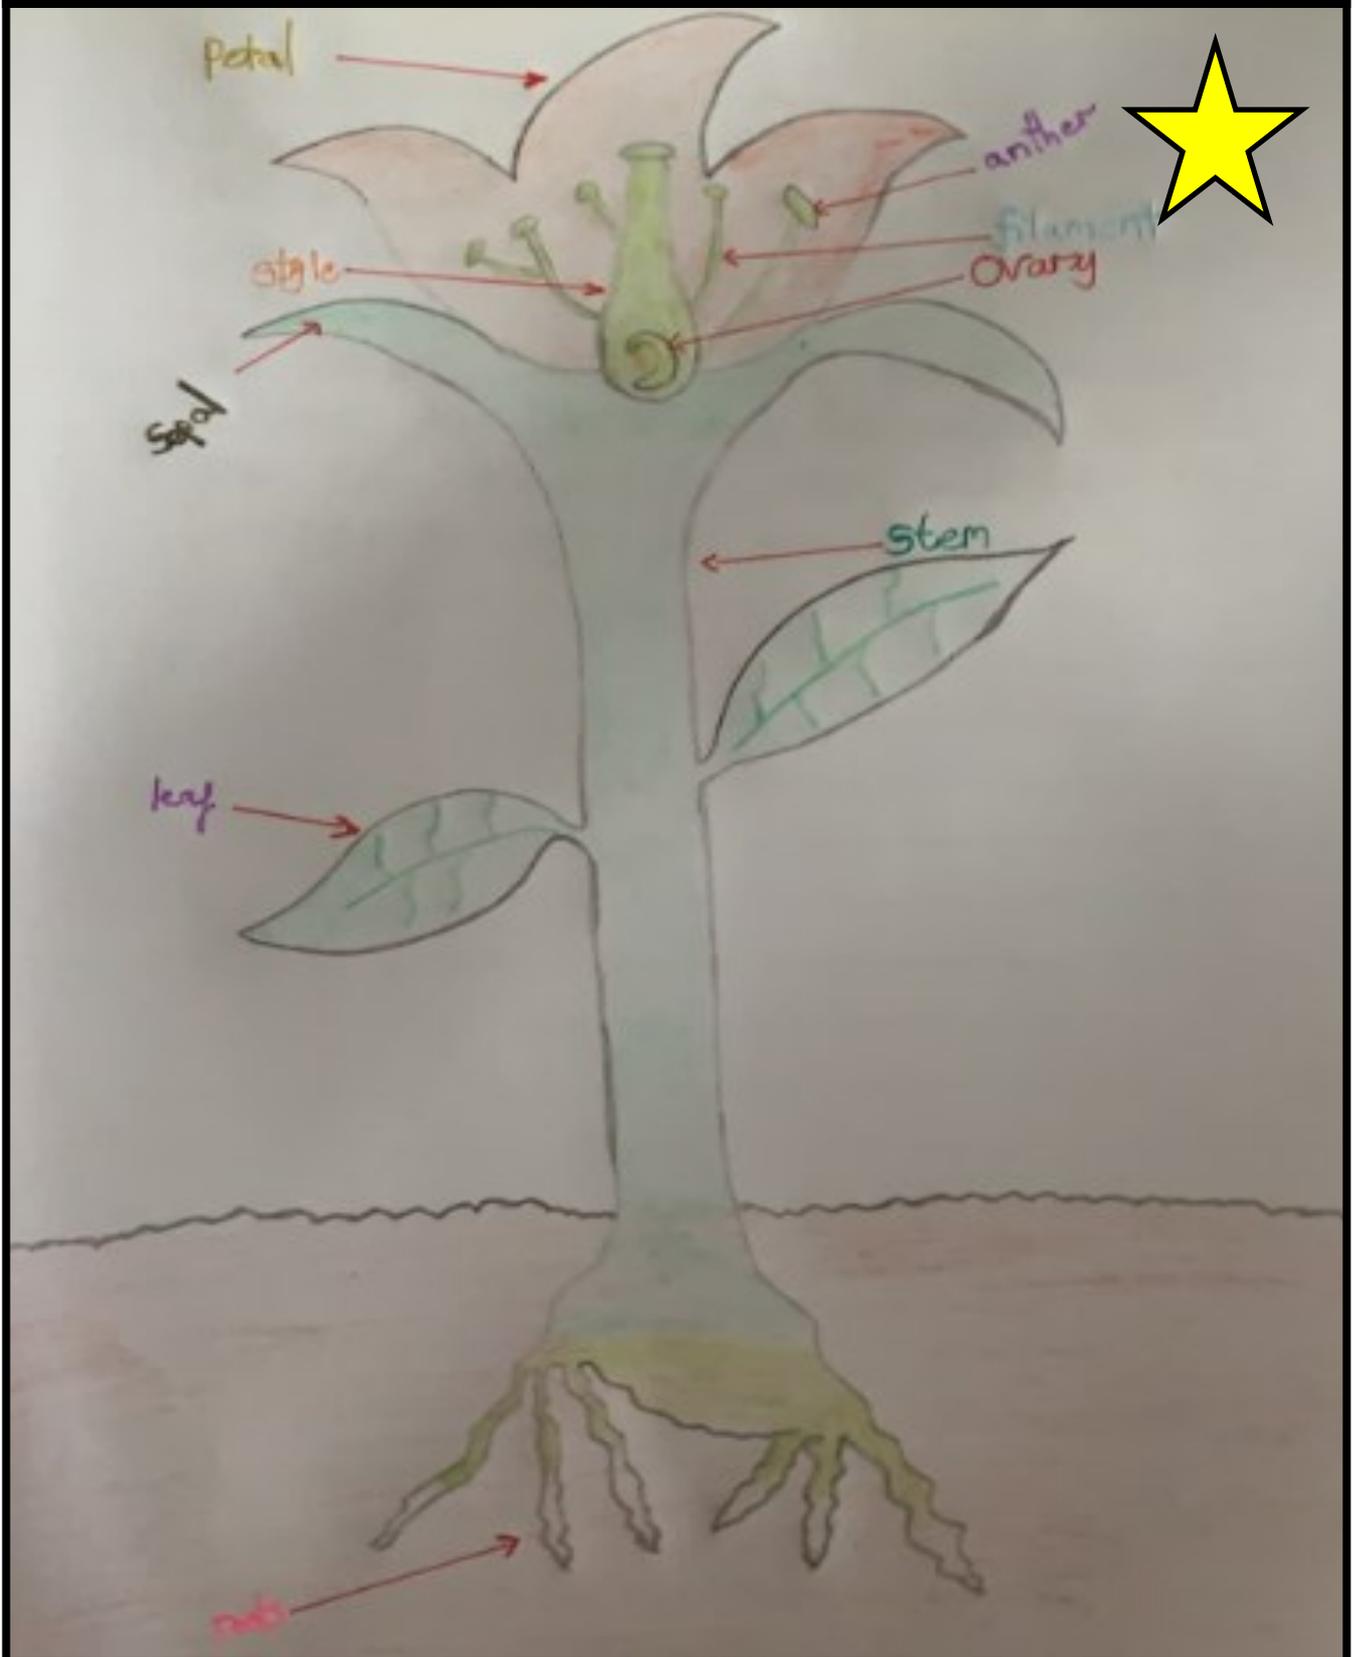

Outstanding Work

A portrait of Mr Broughton By Jessica - Year 3

Outstanding Science Work

Megan - Year 3

Students of the week

Our first student of the week award goes to a boy who has been working really hard from home. Miss Martin has been super impressed with this boy's commitment to learning and how fun and engaging all his activities are. This week, we used DUPLO bricks to form numbers 1-10. He also has a whiteboard in his room which he uses to practise his spellings and to write sentences. Super work!

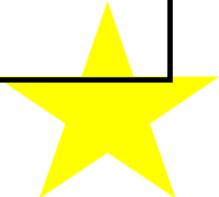

Well done and congratulations to Ethan!

Our second student of the week award goes to a little boy who has been working really hard from home. Miss Martin loves seeing this boys' work as his handwriting is super neat and beautiful. When Miss Martin watches videos of this boy doing his work she can see that he is focused and always tries his best. Keep up the good work!

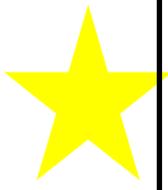

Well done and congratulations to Oscar!

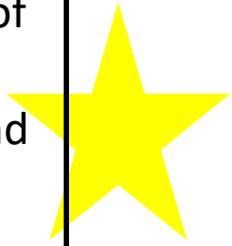

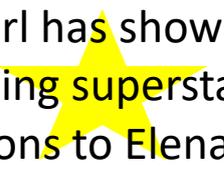

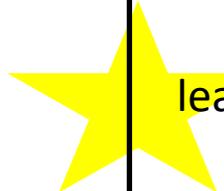

Students of the week

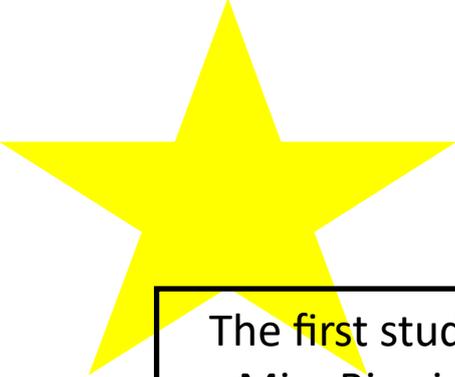

The first special mention for year 1 this week goes to a little girl who really impressed Miss Quirke over zoom. This girl showed off her brilliant writing practice, she has been hard at work practicing her upper and lower case letters. She also shared some of the stories that she has been reading at home this week as well. Miss Quirke was also very impressed with the incredible den that she had made with her sister. It must have taken a lot of effort and determination! Keep up this super learning.

Well done Annabel

The next special mention goes to another little girl who has consistently been working extremely hard from home. This girl always tries her best to complete all the home learning tasks set and works hard to complete these to a high standard. It is evident from her work that she is continuing to work on her writing skills and is working incredibly hard to develop her reading at home. She is also consistently working on her problem solving in Maths and puts in a lot of effort into wider topic work. Miss Quirke is so proud of the dedication this little girl has shown towards her learning. She really is a learning superstar. Well done and congratulations to Elena

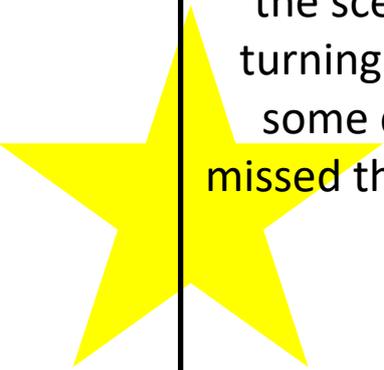

Students of the week

The first student of the week is a girl who has impressed Miss Birmingham immensely with her work ethic and positive attitude. She has persevered through every task, no matter how tricky! Miss Damla has said that this girl is zooming through her math work. She has even been attempting math work from higher year levels, including some equations from Year 6! This girl is certainly a mathematician to watch for the future. Keep up this incredible enthusiasm for learning and you will achieve amazing things.

Congratulations, Chloe.

The second student of the week is a boy who has been creating some fantastic work at home. This week he has been super engaged with our 'Charlie and the Chocolate Factory' writing tasks. One task in particular involved creating an invitation to Willy Wonka's factory. This boy thought carefully about the details he would need to incorporate from the story. He has also been busy 'behind the scenes' with helping in the garden, keeping fit and turning into a master chef in the kitchen by whipping up some delicious meals! Miss Birmingham has certainly missed this boy's beaming smile and happy spirit every day in the classroom but has loved receiving all his Class Dojo updates.

Congratulations, Eden!

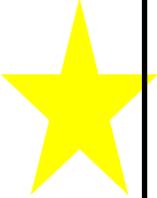

Students of the week

This pupil has shown how in difficult times it is still incredibly important to take the time to look after those who are less fortunate than ourselves. Mael noticed one day that some baby birds had fallen out of their nest and their parents could not help them. He rescued them and is helping them get better so that they will be healthy enough to fly away one day.
Well done Mael!

It was a number of weeks ago now but this pupil really impressed Mr Broughton with his practical knowledge and application of History. He is very lucky to have access to Primary Historical Sources and was able to demonstrate by video how to load and fire an old-fashioned rifle.
Well done to Charlie!

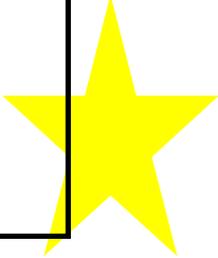

Students of the week

The first student of the week is a boy who has worked tremendously hard this year to improve and extend his writing. Last week, he designed his own super-hero called Super-do and wrote a very detailed character description. He made sure to be very specific in his description so that the reader could accurately visualise his character.

Well done and great work, Freddie.

The second student of the week is a boy who has been working really hard at Learning Creche. He wrote a well-structured persuasive letter to convince Ms Hawkins that students should not have to wear school uniform. In his letter he included two strong reasons, connectives such as Firstly and Furthermore, and included an introduction and conclusion.

This boy should be proud of his efforts.
Congratulations and well done, Michael.

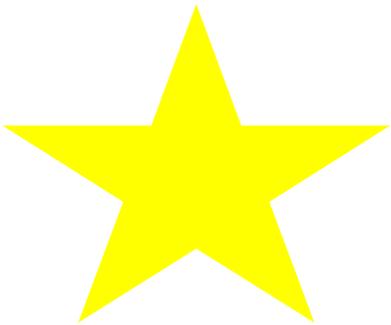

Students of the week

This week's first special mention goes to a boy, who gave one of the best poetry performances Miss Neave has ever seen. Full of passion, emotion and action it was a captivating sight. Miss Neave can see why he is a student that always excels in public speaking and drama. It brought a smile to her face seeing someone so dedicated and enthusiastic about their work in this difficult time. Additionally, it was amazing to speak to him this week. It is hard to keep a smile on your face in these strange times, but this boy not only has one on his face, he brings one to all the staff that work with him.

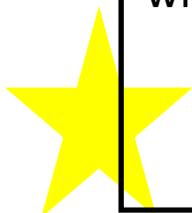

Congratulations and well done, Jehzane.

Year 5's next special mention goes to another boy, who is always a delight to speak to during the week. His presence on Zoom is bright, delightful and full of an eagerness to learn. Miss Neave always looks forward to talking to this student. From discussions on books, to the effect of population on a biome to his awesome and astounding efforts with multiplication, a Zoom session with this boy is not just full of learning, but also an eagerness to learn more and understand all the world around him. Keep up with that enthusiasm and love of learning, it will serve you well.

Congratulations and well done, Lucas.

Students of the week

The first special mention this week goes to a boy who impressed us with his incredible shoebox home. The patience and creativity that went into this project was spectacular. We definitely have an architect in the making. This boy has also shown that he is resilient when it comes to his learning, demonstrating important problem solving skills when attempting to solve a mathematical problem via zoom with Miss Moros. He is never afraid to give something a go, well done and huge congratulations to Andres.

The next special mention goes to a girl who is an all-round star pupil. She has remained a fantastic friend to others during a tricky time being supportive and thoughtful. Her work is always completed to a high standard and has definitely shown clear signs of being ready for Year 7. She has been a delight to have in our virtual classroom and looking forward to seeing her on the 1st of June, congratulations, Naran.
