iphillips@ccht.rbkc.sch.uk

Philosophy For Children

Each week in the newsletter we will pose a question that you and your child or your family can discuss.....remember, listen and respect each other's views!

What makes a joke funny?

"You think the only people who are people, are the people who look and think like you. But if you walk the footsteps of a stranger, you'll learn things you never knew you never knew." - Pocahontas (Disney)

Dear Children, Parents and Carers,

We have had a busy week at school with the children who are back. We are so impressed with how hard the children are working in their learning groups -it is so lovely to have you back.

We have also been sending out the paint boxes, brushes and new books to Year 2,3,4 and 5 children. This is so that you can complete the art section of Everything is Interesting at home. We look forward to receiving copies of your art to display in school.

Parents in Years 2-5 please look out for my e-mail that will discuss the possibility of the children having a weekly visit to school for the last four weeks of term. We desperately want the children back and are trying to see if it would be possible, even if it is on a very part time basis.

We are also thinking very hard about how we can still have a graduation event for all classes at the end of the year... watch this space for more information.

Look out for the different films on Monday, made by our children!

Have a lovely weekend.

Best wishes, Mrs. Hawkins

Show & Tell (ages 4-5 & up)

Author: Rob Biddulph Publisher: HarperCollins

It's Show and Tell day and class 2L are very excited: the child that most impresses their teacher will win a special prize! One child begins by showing everyone a sunflower seed, but the children begin competing with each other to show a bigger, more impressive thing than the child before: gold violins, a parrot, a grandad's false teeth, a live alligator and a real racing car... and that's not even counting the Loch Ness Monster, Big Ben and the Sphinx!

Yet when an alien appears and steals all those wonderful treasures, there's only one thing left. Fortunately, it's just the right thing to win the prize. Hurrah!

Rob Biddulph's fantastic illustration takes in the wonders of the world as well as the more prosaic elements of children's lives in this brilliant rhyming book about the ever-popular Show and Tell.

OUT OF THIS WORLD

Space scientist, **Dr Maggie Aderin-Pocock** is on a mission to take us all **OUT OF THIS WORLD** on a journey up and beyond and she needs your help!

PHOENIX TELEVISION is looking for inquisitive, space-mad children between **6-13 years old** to take part in a brand new TV series for **CBBC** about space, space travel and how it has benefitted our lives on Earth.

A section of the programme is called, **"Ask Maggie"** and will feature short, self-filmed questions from children asking Dr Maggie about space and space travel.

To apply, send a video – no longer than one minute – of your child asking between one and three questions related to ANY of the below themes:

SPACECRAFT, ROCKETS, ROVERS & LANDERS • THE SPACE RACE • SPACE PIONEERS • LIFE ON OTHER PLANETS • DISASTERS IN SPACE • THE SUN & STARS • LIVING IN SPACE • GALAXIES & THE UNIVERSE • EARTH FROM SPACE

Submissions should be mailed to: OutOfThisWorld@phoenixtelevision.co.uk

APPLICATION DEADLINE
Midnight 19th June 2020

(Submitting an application does not guarantee questions will be used in the programme)

Get in touch NOW to take part!

Phoenix Television shall process your personal data and that of the child for whom you hold parental responsibility in accordance with Phoenix Television privacy policy and for the sole purpose of contacting you in connection with the potential participation of the child in the program. No details or videos will feature within a program unless Phoenix Television has contacted you directly and obtained signed consent to do so. All videos not featured in the series and emails with personal data will be deleted upon delivery of the completed series to CBBC, scheduled for August 2020. Phoenix will not store or use your personal data for any other purpose unless we obtain permission. For further policy information, please go to <https://www.phoenixtelevision.co.uk/privacy-policy/> or email clare.beasley@phoenixtelevision.co.uk

Black Lives Matter protests

You may have seen images on the news or heard your adults talking about protests that have been taking place around the world, many of them were in America and right here in the UK. Thousands of people joined these protests to take a stand against racism.

What is racism?

'Racism is where someone thinks you're inferior because of your colour, ethnicity, nationality or race. This can result in them treating you differently or unfairly, this is called racial discrimination' (Childline)

Luckily, at CCHT we know that this isn't right! we know how to play together, love one another and treat each other equally. Well done to you all for always being so amazing to each another.

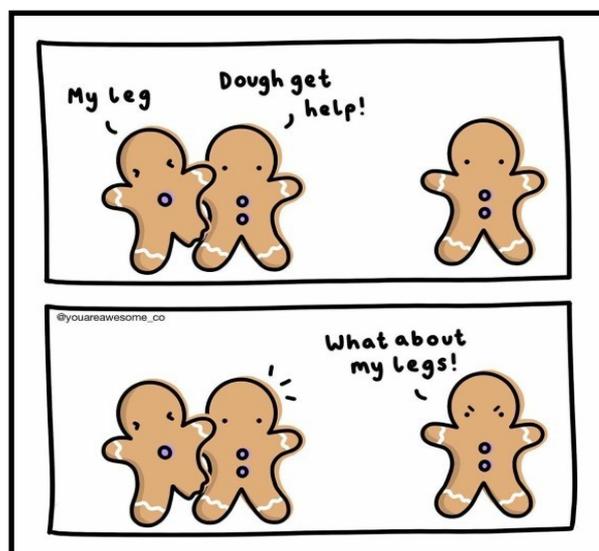

During the protests, people held placards calling for an end to racial inequalities, some of them had the slogan or hash tag Black Lives Matter!

What does Black Lives Matter mean?

This slogan simply means that there is a request for black people around the world to be treated with the same fairness as others.

Look at the drawing of the gingerbread people! One friend is giving extra attention to a friend with a broken leg. Saying Black Lives Matter, is the same, it's giving a little bit more attention to friends that need support.

Keep making us proud by being supportive to one other, in the way that you always are! Keep our school virtues in mind, especially our virtue of Justice .

JUSTICE - is to give people what is due to them: to give them their fair share. When you are just, you seek to be fair in everything you do. To treat people justly, it means to treat people with dignity and not treat them as less than they are. It is just to speak out against anyone who treats you unfairly and it is just to support those who are treated unfairly.

If you would like to find out more about the protests, visit Newsround link below

 W: Think about food waste in our homes.

5 ways to reduce food waste:

1. Eat leftover food
2. Don't buy things you already have
3. When eating, don't eat food that you know you won't eat.
4. Eat older foods before buying new ones.
5. Make a shopping list of what you need.

Holy Trinity Broomstick Lesson

I woke up early in the morning. I was so excited because I'm going to meet my friend. Mostly I was excited to go to the broomstick lesson. I know how to fly a broom, and always in my head when I went to school I had my classmates and my teacher Mr. Parsons. It was so fun in the morning when my class started. It was a privilege. And all the sky was clear blue.

My broomstick is very long with big sticking out of it.

Mr. Parsons said: everyone stand by your broom, are you ready for a unforgettable time. So the lesson start, he told us how to stick our right hand over the broom, how to lean, how to lean back, and of course how to touch the ground.

It felt like a dream, all the fresh air, all morning, every one felt "Paradise".

Uliks - Year 4

FIRE
 Fire is the rapid oxidation of a material in the exothermic chemical process of combustion, releasing light, heat, and chemical products. It can be caused when a combustible substance is heated to its ignition temperature.

COAL
 Coal is a black or brown sedimentary rock containing a high percentage of carbon, used as a source of energy and as a feedstock for many chemical processes.

SUN
 The sun is the star at the center of the solar system. It is a nearly perfect sphere of hot plasma, held together by its own gravity.

GAS
 Gas is a substance that has no fixed shape and no fixed volume. It will expand to fill the volume of a container holding it. The particles of a gas are in constant motion and collide with each other and the walls of the container.

LAVA
 Lava is a hot molten or semi-solid rock erupted from a vent or fissure on the Earth, or solid rock resulting from cooling of this.

Ruby-Anne - Year 4

Amy - Year 5

Compassion - that's the word I understand. Great words. Kind words. words that can make a difference. Being a person that is in our hearts is, I believe, and I hope you are, in a very special way. I hope you are, in a very special way. I hope you are, in a very special way. I hope you are, in a very special way.

Salma - Year 5

English Lesson Two - Character Profiles

<p>August</p> <p>August is very shy and doesn't speak a lot. August is calm and kind. He is intelligent and helpful. Forgiving, someone who can be a fun cartoon character.</p>	<p>Julian</p> <p>Julian is aggressive, mean, arrogant, vindictive, spiteful. What happened to your face?</p> <p>He is manipulative and dishonest. Because he said 'Julian said he was the best' and when he said 'I was the best'.</p>
<p>Jack</p> <p>Jack will be very confident, kind and brave when he defends August. He is encouraging to August and friendly. He says things like 'I'm here to help you, when you need it'.</p>	<p>Charlotte</p> <p>Charlotte is polite, kind, and considerate. She is honest and she loves acting and singing.</p> <p>What rude questions and things. What rude questions and things. What rude questions and things.</p>

Outstanding work by Samantha in Year 4

Students of the week

Blue Group

Our first student of the week award goes to a little girl who has been determined to practice her sounding out of words and blending this week. Both her attitude towards learning new sounds and her efforts completing her work have been impressive. She has really enjoyed our word puzzles and matching sounds to objects activities.

Keep up the good work!
Well done to Charlene!

Red Group

Our second student of the week award goes to a little boy who has been trying so hard to concentrate during all learning activities. He has been working extremely hard with his daily reading and blending with increased confidence.

It was so lovely on Wednesday watching him playing with his friends and the pirate ship.

He was so animated and took on the voices of the pirates so brilliantly!

What a superb week.

Congratulations go to Zak

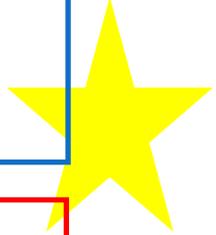

Students of the week

Blue Group

This week's special mention for blue group goes to a little girl who has made a fantastic start to our year 1 class. Starting somewhere new is not easy and it is even harder when you do not speak the same language as everyone else, but this little girl has been incredibly brave during her first week! She has jumped into all the activities and has really tried her best. She has integrated herself so well into year 1 blue and has already made lots of friends who love to play with her. She is also helping Miss Quirke and Miss Smart to learn some new phrases in Spanish.

A great big well done to Nichole!

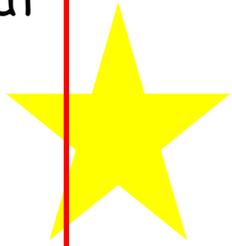

Red Group

The first student of the week is a girl who is an enthusiastic learner and is enjoying being back at school. She comes to class every day with a smile!

This girl completes her work to the highest of standards and always strives to do her best. This week, she wrote a detailed adventure story about a princess, a villain knight and a very helpful cat that helped to save the day.

Congratulations and keep up the fantastic work Isabel.

Students of the week

The first student of the week has completely blown Miss Birmingham away with the amount of work he has been doing every day! His passion for learning has really shined through during his home learning and it has been a pleasure to see. This boy has been working very hard with Mr Barry to create a story board from *Jack and the Beanstalk*, this was some very impressive work! He has also been busy with his fractions work, looking at each question and carefully working out the correct answer and writing with neat number formation. Keep working hard and you will accomplish wonderful things!
Congratulations , Hugo T!

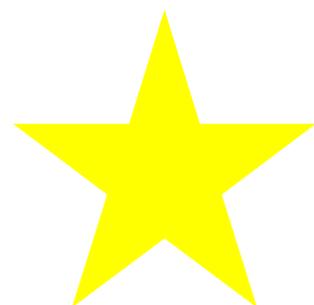

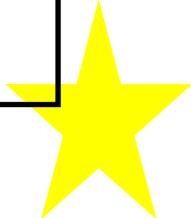

The second student of the week is a boy who always strives to challenge himself during his home learning. It's a pleasure seeing all the work he has completed on Class Dojo; he is certainly collecting a lot of points for his hard work! This boy has been spending this time to improve on his math. In particular, he has been doing lots of independent work by reading the questions carefully and checking his answers afterwards. He has also been trying lots of ways to do some 'hands on' learning, from shaping Play-doh into spelling words to cutting out fractions. This boy has even switched roles with his mum and had a go at being the teacher for a few lessons. He really has been a super star during this time and it's always the highlight of Miss Birmingham's week seeing him over Zoom and listening to his many fun facts. Keep up this amazing love for learning! Congratulations, Harry.

Students of the week

It has been very difficult over the last 2 months to keep up with Home Learning and to stay in touch with other pupils and staff members at school. This pupil has had to move between two family member's houses and still keep up with all of the Home Learning. They did this really successfully and I am very proud to be their teacher.
Well done Elizabeth!

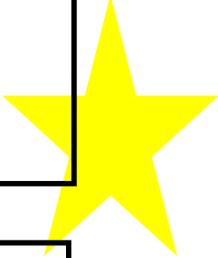

Students of the week

The first student of the week is someone who is an enthusiastic learner and strives to reach their full potential. Over the last few weeks, Year 4 have been learning about fractions and decimals in maths - which can be a very challenging concept. This boy hasn't let that stop him though! He has tackled these tasks head on and with perseverance. He has made sure to ask lots of questions and copy down examples to clarify meaning and ensure understanding. What admirable qualities to have in a life-long learner!
A big congratulations to Mashour.

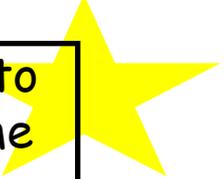

The second student of the week is a girl who reminds Miss Harman of a light bulb - full of energy, potential and spark, and incredibly bright! This week she stormed through her math work on dividing numbers by 10 and 100. But not content with just working hard on schoolwork, she has also been busy learning not one, not two, but three languages! Très bon; Muy Buena; Molto bene. Miss Harman misses seeing your smile every day but 'heard' it loud and clear on our Zoom call! Keep smiling and carry on with your excellent work.
Congratulations to Samantha.

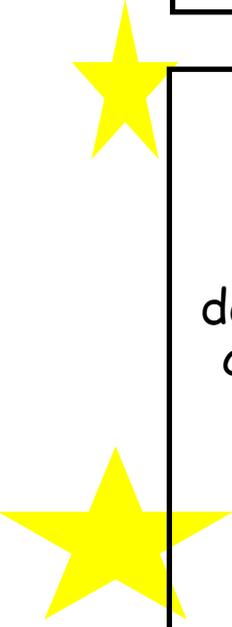

A decorative border of yellow stars surrounds the page. There are three stars at the top, one on the left and one on the right, and several more at the bottom.

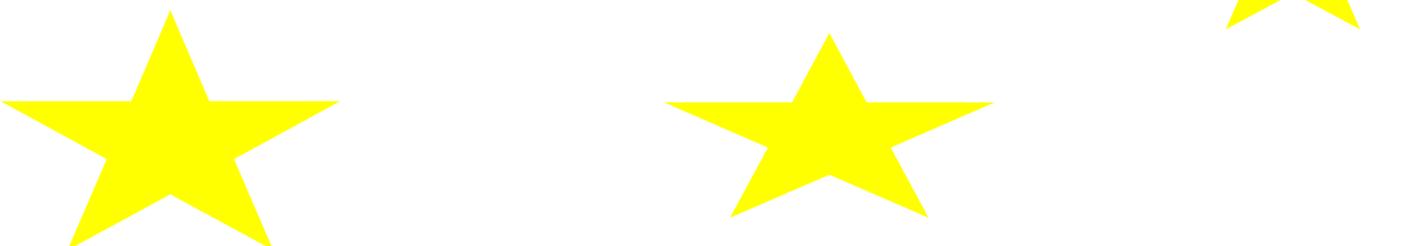

Students of the week

A yellow star is positioned to the right of the first text box.

Year 5's first special mention of the week goes to a boy, who has done an amazing job with his home learning this week. Between flying through his maths, to extra work in English when it moved to be a bit tricky and real enthusiasm for his Science, this boy has had a great week of learning. It was great to see his smile and enthusiasm on Zoom this week and I know that his willingness to try any challenge will serve him well in class. Congratulations and well done, Joel.

Two yellow stars are positioned to the left of the second text box.A yellow star is positioned to the right of the second text box.

Year 5's next special mention goes to a girl, who has been doing amazing work all through lockdown. Every week, she always leaves Miss Neave impressed with her efforts and determination to keep learning. Even when facing a challenge or a tricky question, she will always try her best before seeking out help. She is enthusiastic and always puts 100% into all her work. From Science to Art to English, her work is detailed and shows a clear appreciation for her learning. Keep up the great progress, well done Ruby-Anne.

A decorative border of yellow stars continues at the bottom of the page, with two stars on the left and one on the right.

Students of the week

The next special mention goes to a boy who came back to school this week after a significant time off and he has slotted straight back in. He has put his head down and is always showing us that he is ready to learn, he doesn't have to be told twice, this mature attitude is going to prepare you well for next year. He has been putting his hand up and is ready to answer questions, particularly in maths. The positivity, empathy and kindness he has shown towards other children has impressed us all.

This boy has been a delight to welcome back to the classroom.

Congratulations Khalil, keep up the good work.

The first special mention this week goes to a girl who really impressed us this week with her resilience. She was able to complete complex algebraic equations, she was confident when asking for help and discussed possible solutions using the correct mathematical vocabulary. It was lovely to see how well you rose to the challenge! Not only has she been working hard in the classroom but also in PE, in such a short space of time she has made great progress in tennis and definitely appears to be more confident with her racket!

A huge well done and congratulations to Amy!

This special mention goes to a girl who impressed Mr Tolley with her enthusiasm on her Macbeth zoom call. It is lovely to see that your confidence is still growing by the day even from home! Drama is just the first mention, this girl has also been producing a weekly presentation, so much effort is put into her learning, it shows that she is really enjoying doing her own research on topics.

A very big well done to Dunya!

Students of the week

Blue Rainbow Learners

Being back in class is different at the moment for some. It means learning a new routine, not seeing all your friends, having a new teacher, and remembering that you can't get a high-five even when you have been amazing.

However, despite all these changes, the student of the week in Rainbow Group Blue has been doing an amazing job with his home learning. His cheery smile and enthusiastic attitude light up the classroom. He is always quick share an answer and willing to help others, Miss Aina is always impressed with this boy's enthusiasm and Miss Neave couldn't get over what an amazing job he did with his English this week, which is just few highlights of this boy's learning. Congratulations and well done, Freddie.

Red Rainbow Learners

The student of the week for Red Rainbow Learning Class is Riyad!

He has impressed Mrs Hylton with his reading skills, reading challenging words with ease! and has worked well in class completing all his tasks. Well done Riyad and keep up the good work.
