Y5	96	0	0
Y6	98	0	1

Showing kindness and respect for others with good toilet etiquette

We are having a big focus on toilet etiquette at school over the rest of this half term. We are thinking about flushing the toilet when we use it and ensuring all paper goes down the toilet or in the bin. In addition to this, We don't waste soap and always use it when we are washing our hands.

This video is a really good one to watch with the children to reinforce what we are saying at schools so please look at it together if you can.

9am Thursday 15th June – Y1/Y2

Coffee Morning – School Garden

9am Thursday 22nd June – Y3/Y4/Y5

Coffee Morning – School Garden

*Hope you can make it!
We look forward to seeing you then!*

Amazon Wish List

Thank you to everyone who has purchased

something for our school SEN resources and for our Coronation Tea

Parties from our Amazon Wish List!

<https://amzn.eu./8EJTD8E>

If you would like to purchase something please just add it to your basket and

follow the same procedures as if you were ordering something for yourself.

The items will then be delivered directly to the school – please make sure you select the school address in the delivery section.

Look out for new items added every week!

CHILDREN'S MENTAL HEALTH

COFFEE MORNING

Mr Link would like to invite parents to a coffee morning at Christ Church on Wednesday 24th May at 10.30am. We will be joined by Rashmi Patel, our school CAMHS link officer. She will be available in an informal setting to answer any questions you may have about how to support your child with mental health or anxiety issues. Please rsvp to mink@ccht.rbkc.sch.uk.

Coronation Walk

Saturday 13th May 2023

Hampton Court Palace

to

Christ Church School

Fundraising for CCHT

Coronation Walk

Saturday 13th May

10am

TO DONATE PLEASE CLICK [HERE](#):

Please support the children and staff at **Christ Church & Holy Trinity C of E Primary Schools** who are proudly walking from **Hampton Court Palace** to **Christ Church School** on **Saturday 13th May**, in celebration of the **King's Coronation**. Do share the link above with family and friends to help us reach our £10,000 target. We will be walking a total of 13 miles but there will be 3 starting points to choose from along the way so please do come along, wave us off and take part, everyone is welcome.

We will be raising funds for our **Creative Classrooms**, to enhance and enrich our pupils' education and complement the curriculum. Items we will purchase will include digital cameras, annual subscriptions, playtime equipment, art, drama, music and gardening resources as well as funding class trips, specialist artists and visitors. Outstanding classrooms are central to the happiness and success of all children. Creative environments revolve around excellent teaching and learning but the importance of resources is paramount. The inclusion of a range of exciting books, interactive toys and IT ensure the lessons are interactive, engaging and accessible for all learners and that the learning opportunities will be imaginative, innovative and collaborative. Planning for visitors to come into our schools and share their expertise is such an important part of bringing the curriculum to life and going on school trips offers the children a unique cultural learning experience, encouraging curiosity, while music and drama have such a positive impact on a child's physical, emotional and social wellbeing as well as cognitive development.

Here is the itinerary for the day:

10am - Meet at **Hampton Court Palace** if you would like to walk the full 13 miles (4.5 hours approximately not including stops)

1pm - Meet at **Fulham Palace** (organisers will be there from 12pm) if you would like to walk 4 miles (1.5 hours approximately)

2.30pm - Meet at **St. Mary's Church, Battersea** if you would like to join us for the remainder of the walk (1 mile).

3pm - Meet and greet the walkers at **Christ Church School, Chelsea** for a BBQ, drinks, ice cream and celebrations.

[Here](#) is a link to the route we will be taking.

TLA4AE Study

Temperature controlled Laminar Airflow for Atopic Eczema

Do you have Eczema and Allergies?
You might be interested in this new study!

What is the TLA4AE Study:

- The TLA device filters room air and cleans it
- It is used overnight, during sleeping hours
- We want to find out, if using the TLA machine during sleep can make eczema better

Who can take part:

- Age 4 to 16 years
- Moderate to severe eczema despite treatment
- Allergic to house dust mite
- Sleeping in your own bed

What will happen:

- Allergy testing
- 2 visits to the hospital, 5 video calls and 1 home visit from researchers
- The study lasts 20-24 weeks
- Use TLA machine every night (uses electricity like one 60W lightbulb)
- Help with questionnaires and samples
- Help with travel expenses available

Want more information?
Contact us! TLA4AE Study Team

Telephone/WhatsApp: 07776462345 / 020 33125298

E-mail: imperial.TLA4AE@nhs.net

Reception Class Newsletter

Friday 12th May

This week we:

- Revisited the sound /oi/ (point) in our Alphabet Code lessons and learnt another code for the same sound; oy (toy).
- Recapped number bonds to 10 during our Maths Meetings.
- Read Tessa the Teacher in our English lesson. We role-played being a teacher and wrote a set of classroom rules. We then wrote a job description for a teacher and wrote a list of the objects that can be found in a classroom. We read sentences about the story and drew pictures to match.
- Created a large scale map of a park in our Understanding the World lesson. We decided what we would like to put in our parks and created 3D models. We then photographed the parks using iPads from a birds-eye view.
- Re-read I Ain't Gonna Paint No More by Karen Beaumont. We embraced the mess and explored our creativity by painting patterns on our arms, just like the little boy in the story.
- Listened to the story of The Blind Beggar in our R.E. lesson. Christians believe that Jesus healed people, so they could be well again and have a better life. They believe that Jesus, as God's son, is all-powerful and cares for us all.
- Had a fabulous trip to Battersea Zoo. We learnt lots of interesting animal facts and topped it off with a picnic in the park. Well done, Reception.

Next week, we will:

- Explore odd and even numbers in Maths.
- Use Sam the Chef as a focus for our writing.
- Learn how to read and write the sound /ee/ (teeth) and learn another code for the same sound; y (happy).

Have a fantastic weekend 😊

Learning at Christ Church in Year 1

Friday 12th May 2023

In English, we retold the story of 'Alan's big, scary teeth' and used time conjunctions, such as; Everyday, the next morning and one night, to describe when each event in the story happened. We also used exclamation marks at the end of very shocking sentences. We made a big effort to work towards our individual writing targets. Next week, we begin looking at non-fiction writing and will be learning lots of interesting facts about bears.

In Maths. This week we have been beginning to look at time. We thought about the different times of the day that we do things. Such as brushing our teeth and going to school. We then thought about the days of the week. We carefully realised that the weekdays are Monday, Tuesday, Wednesday, Thursday and Friday; and the weekend days are Saturday and Sunday.

In History, this term we have been learning all about the history of chocolate and where it originated from. We discovered that it was in fact discovered by the Mayan Civilisation and Aztecs thousands of years ago. They used to drink it in a liquid bitter form. Since then chocolate has become very popular and change consistency and shape. We learnt that in 1847 an English chocolate maker called Francis Fry invented the solid chocolate bar, which many of us enjoy today! As a class we then tried different kinds of solid chocolate bar and voted for our favourite. With the outstanding winner being solid white chocolate!

For Alphabet Code this week we have been looking at the /ow/ code and writing sentences using this code. Next week, we will continue looking at the /h/ code.

In Art, we have been learning about the sculptors; Barbara Hepworth and Ai Weiwei and comparing their different 3D artworks. We have thought about size, texture, design and the materials these two artists use to create such captivating sculptures. We also discussed which artwork was our favourite piece and why.

A fantastic week in Year 1!

Have a great weekend!

Learning in Year 2 at Christ Church

Thank you to those who helped us on our trip to the Central London Mosque. We had a wonderful time exploring and learning more about Islam on our tour.

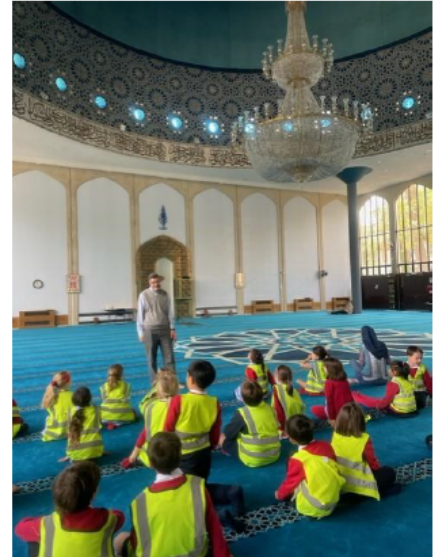

We learnt more about the five pillars of Islam and had an opportunity to visit the prayer hall to see how

Muslims worship and pray.

In English we finished up our edited copies of our narrative, making sure we referenced our editing checklist and success criteria.

We have been reading these narratives to our partners to get peer feedback as well.

In Science we are continuing to learn about life cycles of plants. We have created an experiment to explore the needs of plants:

- Plant 1 is getting air, sunlight and water
- Plant 2 is getting water and no sunlight
- Plant 3 is getting sunlight and no water
- Plant 4 is getting air, sunlight, water and kind words spoken to it each day!

We predict that the last plant will grow the most over the experiment.

Questions to ask your students this week

- What year did Muhammad die?
- Which part of the plant needs water?
- Why is Neil Armstrong famous and where else did he explore?

Learning in Year 3 at Christ Church

Friday 12th May 2023

Together, this week, we have been trying to finish our story of the Krindlekrax as next week, Year 3 will be writing recounts using their understanding of the text. For their homework, I have asked them to read some chapters of the story so we can start this next week – please could you also read with them /to them to help them read all pages by Monday!

In maths, we have been thinking about the time – telling the time past/to the hour as well as solving duration problems (like in their homework last week) and also starting to think about converting analogue to digital as well as 12-24-hour time. This week, their homework will require them to switch between analogue and digital – remembering that digital only shows how many minutes past! I've found they are much more confident in writing digital time.

The class have done an amazing job this week at completing the mosaic to celebrate the coronation of King Charles which will be revealed very soon!

This is at as a work in progress earlier in the week...

Best wishes for a lovely weekend and good luck to anyone taking part in the coronation walk!

Miss Kennedy

Learning in Year 4

Friday 12th May

This week in English, Year Four responded to their teacher's feedback and improved their stories by making corrections with their green pen. We then wrote some riddles to help our readers to solve the mystery of where the lost treasure was hidden in the museum of extraordinary objects. We learnt that a riddle is a type of poem that works like a puzzle. We used rhyming words and even embedded hidden letter in our writing. Next week, we will be looking at 'The Selfish Giant' by Oscar Wilde. In Maths, we have practised dividing 1-digit by 10 and identifying the value of the digits in the answer as ones, tenths and hundredths. We then moved on to divide 2-digit number by 10. Finally, we looked hundredths as fractions and compared a variety of representations. Next week, we will be learning about co-ordinates on a grid.

In Geography, we have named and located some of the key topographical features of the UK. We learned how topography describes the physical features of an area of land. These may include physical features, such as; mountains, rivers and lakes, but also may be human features, such as; roads, dams and cities. In Art, we delved deeper into our 'Journeys' unit and have looked at an artist called Leonora Carrington. We discussed how 'surrealism' is an art movement started by French writer, André Breton in the 1920s. We know that 'surreal' is a term which can be used to describe art that is based on fantasy and the world of dreams. In Special Mentions assembly this week, year four shared their wonderful music learning from the past year. Well done for performing so brilliantly as an ensemble!

Good questions to ask your child this week:

- Name 3 topographical features on the UK?
- What is unique about a surrealist painting?
- Which is greater: 5 tenths or 5 hundredths?
- Reminders:
- Looking forward to seeing lots of you on the Coronation Fundraiser CCHT walk tomorrow! 😊
- Swimming is on Wednesday mornings.
- Homework is sent home on Thursdays. Homework club takes place on Thursdays.
- Please bring Reading Records and Homework books in on **Tuesdays**.
- P.E. is on Monday and **Tuesdays**. Please send your child in wearing their P.E. uniform and trainers.
- Trip to the Southwark on Wednesday 17th May
- **Word of the week:** speechless- unable to speak because you are so shocked, angry or surprised

**Residential trip to Osmington Bay.
Year 5 will be back later today.**

Learning at Christ Church

Friday 12th May 2023

This week has been SATs week so the children have been working incredibly hard on their assessments. In total, they have completed 6 tests and have put their all into each paper. It was wonderful to see the effort and dedication to their studies and we are all very proud of them.

Here is the Special Mention for Year 6:

'This certificate goes to the entire Year 6 class for the fantastic way that they have tackled the SATs week. It is no easy job doing a test every day (some days two!) and they have all risen to the occasion with a smile on their face and a 'can do' attitude! Each child has worked incredibly hard this year and really shown great maturity by taking ownership of their learning and revision. They put their very best into each paper and never complained! The entire Year 6 team is so proud of each and every one of you for believing in yourselves and making fantastic progress this year. We feel extremely happy to know that we are sending off such independent, thoughtful and dedicated learners who never give up when things get hard. You will go far at Secondary School. Well done Year 6!'

In between tests, we reviewed our results from a Science experiment that we did last week. We used our findings to draw a line graph focusing on drawing the scale, axis and points. In PE, we have been doing handball which has been met with huge enthusiasm and comradery!

Investigating whether the distance of a light source from an object affects the size of the shadow.

I hope you all have a lovely weekend!
